**The person who can make health care decisions for you if you are too sick to make them yourself.**

### Whom should I choose to be my medical decision maker?

A family member or friend who:

- is at least 18 years old
- knows you well
- can be there for you when you need them
- you trust to do what is best for you
- can tell your doctors about the decisions you made on this form

Your decision maker **cannot** be your doctor or someone who works at your hospital or clinic, unless he/she is a family member.

### What will happen if I do not choose a medical decision maker?

If you are too sick to make your own decisions, a person will be chosen for you according to Pennsylvania law. This person may not know what you want.

### What kind of decisions can my medical decision maker make?

Agree to, say no to, change, stop or choose:

- doctors, nurses, social workers
- hospitals, clinics, or where you live
- medications, tests, or treatments
- what happens to your body and organs after you die

Your decision maker will need to follow the health care choices you make in Part 2.

## Other decisions your medical decision maker can make:

### Life support treatments - medical care to try to help you live longer

- **CPR or cardiopulmonary resuscitation**

cardio = heart      pulmonary = lungs      resuscitation = to bring back

This may involve:

- pressing hard on your chest to keep your blood pumping
- electrical shocks to jump start your heart
- medicines in your veins

- **Breathing machine or ventilator**

The machine pumps air into your lungs and breathes for you.  
You are not able to talk when you are on the machine.

- **Dialysis**

A machine that cleans your blood if your kidneys stop working.

- **Feeding Tube**

A tube used to feed you if you cannot swallow. The tube is placed down your throat into your stomach. It can also be placed by surgery.

- **Blood transfusions**

To put blood in your veins.

- **Surgery**

- **Medicines**

### End of life care - if you might die soon your medical decision maker can:

- call in a spiritual leader
- decide if you die at home or in the hospital
- decide where you should be buried

**Show your medical decision maker this form.**

**Tell your decision maker what kind of medical care you want.**
